19 March 2021: provisional estimates on cause of death IN 2020 were revised during the production of subsequent quarters in light of new information relating to Coroner's cases. All estimates were correct at the time of publishing based on the information available at that time, but there can be a delay of several months to receive the outcome of a coroner's case. Revisions have been marked in red and are in line with [Vital Statistics Revisions and Errors Policy](#) improving the accuracy of the data
